

# #1 in Guitar Value, Service & Trust

## JOHNNY THOMPSON MUSIC in MONTEREY PARK

WELCOME! 歡迎 BIENVENIDO  
HOAN NGHIN 어서 오세요

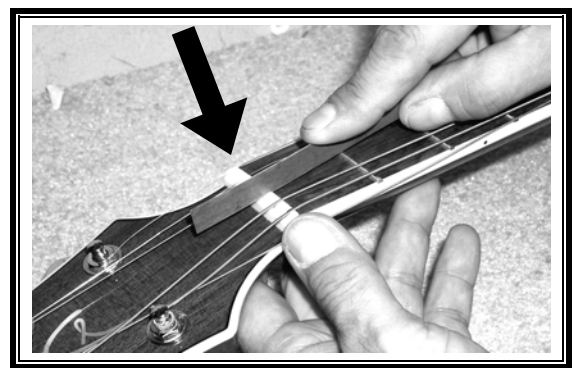

### You can trust Johnny Thompson - We work for you!

Your teacher knows every instrument sold *unprepared* out-of-the-box is not yet playable and tunable. Instrument setup service is required and can cost between \$50 to \$100 or more. Only JTM offers instruments that already include professional preparations and FREE warranty service, as pictured below:

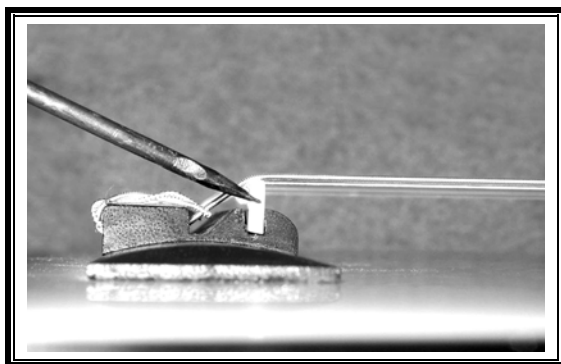

#### STRAIGHTEN "NECK"

Reduces string fretting pressure & help prevent tired hands. Play guitar more enjoyably, while guitar plays more in tune.

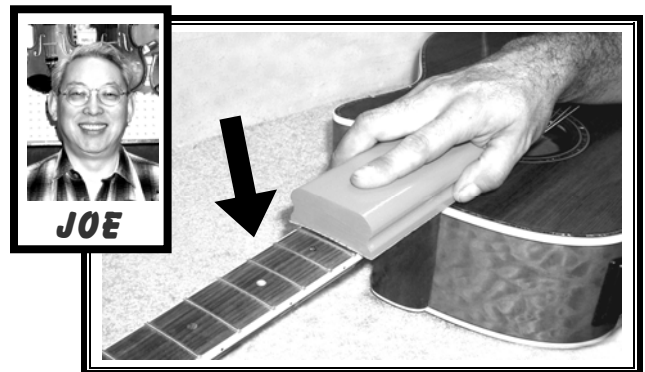

#### FILE THE "NUT" (TO LOWER STRINGS)

High strings hurt the fingers & are difficult to play. Pressing too-high high strings also play "out of tune".

#### LOWER OR ADJUST "BRIDGE"

High bridge means high strings = hurting fingers, also causing intonation and tuning problems.

#### LEVEL & SMOOTH "FRETS"

Reduces uneven frets & allows for lower string height. Prevents string fret buzzing and helps your fingers relax.
